In-situ simulation and human factors training: A new paradigm in patient safety

Date: Thursday 24 September 2015
Venue: The Royal Society of Medicine, London
CPD: 5 credits (applied for)
Organised by the RSM’s Patient Safety Section in association with the Royal Brompton Hospital

Gain an insight into in-situ simulation and human factors training and assess the positive impact of this state-of-the-art educational initiative on patient safety, featuring a panel of international speakers and an afternoon of interactive workshops.

Programme includes:
• Human factors: Why do in-situ simulation?
• The individual and organisational perspective: Making systems safer through in-situ simulation
• Promoting excellence in in-situ simulation
• Three workshop rotations

A drinks reception will follow this meeting, to which all delegates are invited

Prices:
RSM members: £35 - £90
Non members: £50 - £140
