

PAEDIATRIC RETRIEVAL & ACUTE MULTI-DISCIPLINARY SIMULATION (PRAMS) COURSE

2017

28th Feb
09:00-17:00

16th May
09:00-17:00

Lunch is provided

COURSE AIMS

Understand the challenges of Paediatric Retrieval from the Paediatricians point of view...

Understand the challenges of Paediatric Retrieval from an Anaesthetic point of view...

Understand the challenges of Paediatric Retrieval from the Emergency Departments point of view...

OBJECTIVES

To develop a simulation based course in conjunction with the South Thames Retrieval Service (STRS) to improve patient safety and care.

To develop an inter-professional simulation course to improve skills and teamwork for all the staff involved in paediatric care.

To break down the barriers between specialities who are caring for sick children and forge long-term multi-disciplinary collaborations.

To address the learning needs of different professionals during the simulation including nursing staff, anaesthetists, paediatricians and theatre staff.

WHO SHOULD ATTEND?

All Doctors, Nurses, ODP's who potentially will be involved with Paediatric Retrievals.
